INTRODUCTION

In the following log entry, Resistance leader Colonel Grisham recounts the decision to implant Lieutenant Vaughan with the Alien Imaging Unit.

AGAINST ALL ODDS, CARTER HAS FINALLY COMPLETED THE CYBERNETIC ALTERATIONS TO LIEUTENANT VAUGHAN. UNDER OUR OWN LIMITED TEST CONDITIONS, THE ADAPTED IMPLANT APPEARS TO BE FULLY FUNCTIONAL. I PERSONALLY HAVE STRONG RESERVATIONS - HOW USEFUL THIS DEVICE WILL PROVE IN REAL COMBAT CONDITIONS REMAINS UNKNOWN. THE OPERATIONS HAVE ALSO LEFT VAUGHAN WITH A HEAVILY DISTURBING APPEARANCE. I PERIODICALLY HAVE TO BREAK MY EYE CONTACT, AS I FIND MYSELF GAZING AT THE GLOW OF THE IMPLANT OR ALMOST AS BAD, THE SCAR TISSUE SURROUNDING IT. TO HIS IMMENSE CREDIT, VAUGHAN APPEARS TO HAVE ACCEPTED THIS WITHOUT RESERVATION.

THE SITUATION IS BLOODY AWKWARD, BUT THERE IS NO POINT LANGUISHING OVER IT NOW. SINCE THE ALIEN INVASION, OUR NUMBERS HAVE BEEN DWINDLING RAPIDLY. THE ALIENS HAVE FAR SUPERIOR WEAPONRY TO US AND EXPLOIT TECHNOLOGY IN WAYS WE NEVER PREDICTED. THE ALIENS HAVE EVEN CAPTURED OUR SOLDIERS, BRAINWASHED AND MODIFIED THEM, AND THEN USED THEM AS WEAPONS AGAINST US! AND OUR NUCLEAR WEAPONS ARE USELESS. IF WE DARE USE THEM, WE'LL ANNIHILATE OURSELVES IN THE PROCESS. HEAD SCIENCE OFFICER CARTER HAS CONVINCED ME THE ONLY WAY TO FIGHT SQUARELY AGAINST OUR ALIEN ENEMIES IS BY USING THEIR OWN TECHNOLOGY AGAINST THEM. WE HAVE BEEN REDUCED TO MAKING OUR FINEST SOLDIER A WALKING MUTANT...

PLAYING THE GAME

Lieutenant Vaughan's natural instinct is to search and discover. To complete the missions, move around the environment, searching high and low for items and clues that can help you along your way.

GENERAL MOVEMENT

Use the Directional buttons or Left analog stick to move Vaughan.

Crouching

Press the  button to put Vaughan in a crouched position. He can also move in this position to seek cover or sneak up on enemies. Press the  button again to return to a standing position.

Climbing

To climb up, bring Vaughan close to where you want him to climb. Press the Directional buttons or Left analog stick **↑** and press the **⊙** button. If the climbing surface is suitable, Vaughan will hoist himself up.

He can also climb up and down ladders. Walk Vaughan up to a ladder and he will put away his weapon and grab the ladder. If climbing down, bring Vaughan to the ladder and he will turn and grab the top rung. Use the Directional buttons or Left analog stick **↑/↓** to move Vaughan up or down a ladder. Press **←/→** to move him side-to-side. If Vaughan comes under fire while on a ladder, he will fall.

Moving objects

Certain objects such as crates may be moveable. When Vaughan stands next to a moveable object, it will glow red. To move the object, get as close as possible and press the **⊗** button to make Vaughan grab the object. Hold the **⊗** button and either push or pull the object using the Directional buttons or Left analog stick.

USING THE ALIEN IMAGING UNIT

The sensor in Vaughan's eye gathers data for analysis by the implant in his brain. To activate the sensor and its Heads-Up Display, press and hold the **R2** button and scan the environment by using the Directional buttons or Left analog stick.

Enemy Scan

When locked onto an enemy, the readout shows its health status which displays at a maximum 100%. Any successful attack on that enemy will reduce its health readout. Other enemy data includes range in meters, threat level (100 is maximum) and a description of attack capabilities.

Environmental Scan

When a scan picks up important objects or unusual features in the surroundings, that info appears in the Heads-Up Display. Scan an unfamiliar area to find useful equipment or discover the location of hazards.

USING SWITCHES AND KEYCARDS

Keycards

Keycards are used to open doors or shut down Alien force fields. Keycards are stored in the Items Inventory for later use. Approaching the key card terminal activates the "Keycard Required" alert at the bottom of the screen. Press the  button to open the Items Menu, select the appropriate keycard and press the  button to use the keycard. If used correctly, the "Keycard Used" alert will be displayed at the bottom of the screen.

Switches and Levers

To activate switches or levers, walk up to them and press the **X** button. Throwing a switch or lever may result in an action that takes place a distance from Vaughan's location.

USING THE SHIELD

When used effectively, the Shield can block and absorb any potential damage. Shield Packs can be found as handy pickups, and Vaughan can carry up to five Shield Packs at any one time. Press the **△** button to use the Shield.

The Shield can serve as an offensive weapon that generates an Electro-Magnetic Pulse to stun enemies. Double-tap the **△** button to release the EMP. Use of this life-saving tactic will completely exhaust the Shield Pack.

WEAPONS

ENERGY BLADE

Of Alien origin, the Energy Blade is the only one in human possession. It has been retrieved from a slain Alien guard and emits a powerful charge on contact at close range. Unconfirmed reports suggest a powerful bolt of energy can also be discharged from the Energy Blade, but extensive testing has failed to prove this ability.

Primary Attack – Melee Attack

Press the  button to perform a single slash. Tap the  button repeatedly to deliver a combination of underhand, crosswise and overhand strikes.

Secondary Attack – Blade Bolt

Press and hold the  button to charge the blade, then release to fire a lethal bolt of energy...once you can figure out how to activate it.

AG-35 MACHINE GUN WITH GRENADE LAUNCHER

The AG-35 is a machine gun with integrated grenade launcher. It is based on a heavily modified version of the standard firearm used by Resistance troops. This lightweight machine gun provides excellent medium range defense.

Primary Attack – Machine Gun

Press the  button to fire bullets from the machine gun.

Secondary Attack – Grenade Launcher

To accurately increase the trajectory of a grenade launch, press and hold the **R2** button and use the Directional buttons or Left analog stick / to aim. Use the  button to fire the grenade.

RV-40 ROCKET LAUNCHER

The RV-40 can fire rockets singularly. Alternatively, it has a multi-targeting facility to allow it to simultaneously fire a number of homing rockets at multiple targets.

Primary Attack – Single straight-line rocket

Launches one rocket with each press of the  button.

Secondary Attack – Multiple Homing Missiles

Five missiles are launched simultaneously. They will strike multiple targets or all lock onto a single target. Useful for taking out vehicles.

XK-50 LASER CANNON

A classified weapon under development by Rothbart Optics before the Alien invasion started. Capable of both rapid laser fire and releasing stored laser energy in a single burst.

Primary Attack – Rapid Laser Bolts

Press and hold the  button to fire laser bolts.

Secondary Attack – Charged Laser Bolt

Fires a single huge bolt of energy. Press and hold the  button to charge the weapon then release to fire.

ALIEN PLASMA WEAPON

Primary Attack – Plasma Bolts

Press and hold the  button to fire bolts of plasma. The longer the  button is pressed, the higher the rate of fire.

Secondary Attack – Wide Plasma Bolt

Press and hold the  button to charge up the weapon and release to fire a wide swath of destruction.

The width of the plasma bolt increases the longer the  button is held.

...MESSAGE FROM COLONEL GRISHAM: VAUGHAN, THIS STANDARD ISSUE ALIEN WEAPON WILL FRY YOUR HIDE IF YOU GET IN ITS PATH. SHOULD YOU SUCCEED IN ACQUIRING ONE FOR YOURSELF, BE SURE TO COLLECT PLASMA CELLS TO REPLENISH THE WEAPON ONCE IT RUNS OUT OF AMMUNITION...

ION CANNON

Primary Attack – Electrical Beam

Press the  button to fire an electrical beam.

Secondary Attack – Chained Electrical Discharge

Press and hold the  button to charge the Ion Cannon and release to fire. The discharge will temporarily stun the target, and then jump to other enemies in the area until it runs out of power.

...MESSAGE FROM COLONEL GRISHAM: DESPITE EXTENSIVE RESEARCH, THE WORKINGS OF THE ION CANNON REMAIN A MYSTERY TO RESISTANCE SCIENTISTS. HOWEVER, WE KNOW IT IS HIGHLY EFFECTIVE AT SABOTAGING ELECTRICAL SYSTEMS...
